

# COLORCOVE

## General Description:

The WDM Colorcove is an advanced LED decorative linear lighting system which is based on RGB technology that can create 16,000,000 color combinations. It features a convenient tube connection system for daisy-chaining multiple tubes together. Preprogrammed lighting effects include: solid color, color change, color wash, color flash and more.

## Specification:

LED Quality: 5mm Ultra Bright

LED Quantity: 45pcs (R15,G15,B15)

Operating Temperature: -200C ~ +450C

Humidity: 0-95%

DMX multifunction controller

Input: DC24V

Current: 1.4A

Power Consumption Max: 5 Watts per Foot

Tube: clear poly-carbonate

50,000 Hours Lamp Light

Beam Angle: 120 Degrees x 40 Degrees

Size: 12 in. x 1.7 in. x 1.7 in.

Protection Rating: IP65

Outdoor Rated

Voltage: 24VDC

# COLORCOVE

## Key Features:

### Built In Features:

Master/Slave Mode

Built in Color Macros

### RGB - Additive Color Mixing:

The RGB color mixing system is based on graduated red, green and blue LEDs. A continuous range of colors may be achieved by varying the amount of intensity from 0 to 100%.

### Control Features:

4 DMX Channels

Pre-programmed controller

3-pin XLR serial input/output

### Dimmer/Strobe:

Electronic Dimming: 0-100%

Strobe effect with a maximum flash rate of 0-18 fps. Pre-programmed effects: solid color, multi-color, and color wash

### Rigging:

Adjustable Mounting Clips
