

MR16- 7 WATT

**General Description:**

The MR 16-7 Watt offers a high output LED Lamps for indoor and outdoor use. MR16 7 Watt offers a number of different beam angle options along with 40,000 hours of quality light.

Typical applications are for marine, boat, caravan, solar, home lighting, table lighting, ad lighting, navigation signal, museum, gallery, shop window, casino, bar, hotel, mall, exhibition, and meeting room etc.

Key Features:

7 watt

220 Lumens

Aluminum body, for high shock/vibration resistant

Low power consumption

Solid-state, fast turn on

Operating life average up to 100,000 hours. Minimum 50,000 hours

Easy installation, using existing socket

Save energy and maintenance cost

Major Reduction In Heat Generation Replacement

Warm White (3200K)

60 Degree Beam Angle

Last up to 50,000 hours

Withstand shocks, vibrations, frequent switching and temperature extremes that rapidly incapacitate fragile incandescent lamps

Reduction of maintenance costs

Decrease of electric costs by up to 90%

Low heat generation

Wide range of voltage applications
